## NATIONAL EGG REVIEW

Early week prices were lower in all areas. During the week prices continued lower on all sizes in all areas. The market tone was usually weak. Demand was very light to occasionally moderate. Supplies were adequate to available, at times ample for trade needs. Central States breaking stock nest run prices were lower. Demand for spot heavy nest runs was light to moderate with most breakers reporting regular commitments and company owned production as fully sufficient for current breaking schedules. Gradeable nest runs and heavy weight graded shell eggs were readily available. Schedules mostly full-time. Floor stocks at least adequate and building. Trade sentiment mostly barely steady to instances weak. Offerings for the light type fowl usually adequate to fully adequate for the moderate to instances good demand.

1/Information is supplied by a universe of 170 cooperators who normally have stocks on hand each Monday A.M. and is on the basis of matched plants reporting in both the current and previous weeks. Sample does not represent total U.S. inventory but includes eggs packed for export when in cooperator's coolers.

\*\*\*\*\*

No valid comparison can be made with year ago or previous months' figures due to changes in number of plants surveyed, holidays falling in different weeks or changes in size of plant operations.
